Our Rivets are now available in the most requested color . . . **INVISIBLE**

The above photo illustrates our actual stock of JUST the size 43 all stainless rivet. We stock the 43 ALL S/S rivet in plain and these 54 different colors pictured above, in convenient bags of 250 pieces – all for the same day shipping.

We just increased our stock levels on rivets to *over 55 MILLION* pieces, of which over 45 MILLION are pre-painted. Our rivets are almost exclusively stocked in bags of 250 pieces – for your ease of ordering and your efficient disbursing to your crews.

All of our all stainless rivets come standard with a grooved-mandrel versus the cheaper smooth-mandrel. The grooved-mandrel allows the jaws of your rivet tool to get a better grip and reduce slippage – to more efficiently install these rivets.

Our pre-painted rivets never have any paint on the mandrels to gum-up the jaws of your rivet tool. Also, there is not ever a “paint set-up charge” when purchasing pre-painted rivets. Our goal is to typically have in stock the rivet that you need, already painted, to precisely match your panel supplier’s standard colors. However, please be aware that when matching paint colors for relatively small lot sizes, there will always be a certain degree of inconsistencies – thus, there must always be a few color-shades of tolerance.

Rivet Tools and Drill Bits:

CORDLESS RIVET TOOL

Tired of wasting your time and effort pulling rivets by hand? This 14.4-volt battery powered rivet tool will pull your rivets with just a squeeze of the trigger. The Accubird can pull 3/8" to 1/2" standard rivets. The Powerbird can pull 1/8" to 3/4" standard rivets (but NOT 1/2" rivets) and it can pull the Butler Bulb-Tite 3/2" rivet with optional adapters. Safety too – the spent mandrels get collected in the twist-off cap at back of tool, no longer falling aimlessly to whatever/whomever may be below. .79" stroke length. 1,900 lbs. max pulling force. Pulls 1,100 all steel 1/8" dia. rivets on a single charge. 4.8 lbs. tool wt.

This Accubird rivet tool kit includes: tool, 14.4V battery, charger, wrench and nose pieces.

Accubird 14.4V Li-Ion Rivet Tool Kit..... \$926

The Powerbird is similar to the Accubird except it has nearly twice the pulling force and a high AMP battery. When the RVA173 adapter (listed separately below) is added it will pull approximately 100 3/2" bulbrite rivets on a charge. Also requires 3/2" pulling head (see pg 84).

Powerbird 14.4V Li-Ion Rivet Tool Kit..... \$1,075

RVA173 Powerbird Adapter for Bulbrite Rivets..... \$94.25

RIVET TOOL

This high quality hand rivet tool will pull rivets up to 3/8" diameter in all materials.

MODEL #	1-5 PRICE	6+ PRICE
HP-2	\$32.55	\$29.30

Our supplier is gradually and selectively changing their packaging for our drill bits for steel. Rest assured, the new green box and the famous red box are the same premium quality bit made by the same company.

***Double-Ended Bits also available!**
